Dear Prof. Rokne,

First my apologies for the delayed response; it has been a very busy start of semester. Second, thank you so much for your investigation and for removing the offending papers from Xplore, and adding the violation notices. My students and I really appreciate your work. Although four years have passed from the original plagiarism episodes, it is reassuring to know that eventually some remediation has taken place.

I did notice, however, that Gatani's offending papers are still available on the IEEE Computer Society Digital Library (<http://www.computer.org/portal/web/search/author>). For example:

<http://www.computer.org/portal/web/csdl/doi/10.1109/CCGRID.2005.1558556>

Needless to say, it would be appropriate if the CSDL was updated with the violation information. Will this be take care of?

Thanks again and best wishes,

-Fil

PS - We updated our page (<http://sixearch.org/plagiarism/>) to reflect these latest developments.

Dear Dr. Menczer,

Please check Xplore.  
The Gatani case has finally been completed.

Best regards  
Jon Rokne  
VP PSPB
